

KARAN RAMI

Career objective

To apply my skills in day to day role, to grow every day in both professional and personal spheres and to groom myself for a future leadership role.

Professional summary

- Software Professional with 7 years of experience in end-to-end development of software applications from requirement analysis to system study, designing, coding, testing, debugging, documentation, implementation using Microsoft.Net Technologies.
- 7 years of experience working among technologies such as XAMARIN.IOS, XAMARIN.ANDROID and XAMARIN.FORMS applications.
- Strong skills in mobile design, including work with C#, .NET, automated testing, issue tracking and source control tools like TFS, Visual Studio App center.
- Hands on experience in requirement gathering, analysis, system modelling, design and development of N-tier client server application architecture.
- Collaborated with UI/ UX TEAM developing wire frames and prototypes using various 3rd party tools.
- Strong in the complete SOFTWARE DEVELOPMENT LIFE CYCLE (SDLC) including requirements definition, design, programming / testing and implementation of major systems and involved development and deployment of many client/server systems based on n-tier, TDD.
- Extensive Knowledge on Microsoft .NET Design Patterns including Dependency Injection (DI), Inversion of Control (IOC), Singleton, MVVM (Model-View-View-Model)
- Strong skills working with Web Services, creating and implementing them, and use the data retrieved to manipulate and send it to the UI.
- Ability to meet deadlines and handle multiple tasks, decisive with strong leadership qualities, flexible in work schedules.
- Ability to work as Team Player or Solo, maintained client/customer relationships by providing timely, quality products and services, understand the requirements of client/customer needs and try to put maximum effort in delivering quality products with customer satisfaction.

Certifications

- Xamarin Certified Mobile Developer
- Xamarin Certified Mobile Professional

Technologies

Language & Technologies	C#, XAML, SQL, HTML/CSS, JavaScript, Java, Swift
Framework	Xamarin, MAUI, .Net Core, .Net Framework, .Net Standards, Angular, ASP.NET
Databases	Oracle 11G, MSSQL, SQLite

Management & Methodologies

Development Methodology	Agile
-------------------------	-------

Tools

Reporting Tools	JIRA, Azure DevOps
Bug Tracking Tool	JIRA, Bugzilla, TFS, Azure Boards

Management & Methodologies

Estimation Methods	Work Breakdown Structure and Functional Point Analysis
--------------------	--

Infrastructure Environment Experience

Operating system	Mac OS, Windows 7/8/10, Android, iOS
------------------	--------------------------------------

Education

Degree	University	Passing year	Grade
B.Tech IT	Ganpat University	2015	6.5
H.S.C	Gujarat Board	2011	66.6

PROFESSIONAL EXPERIENCE – 7 YEARS

- Pairsoft. (formerly MBAF - PaperSave)
Duration: 2 Year 10 Months (Sep, 2019 – till date)
Designation: Software Developer
- Cygnat InfoTech Pvt. Ltd.
Duration: 1 Year 5 Months (Feb, 2018 – Sep, 2019)
Designation: Software Developer
- Aarush Infoweb Pvt. Ltd.
Duration: 2 Years 8 Months (July, 2015 – Feb, 2018)
Designation: Software Developer

PaperSave (2 Years 10 months)

Domain	Document management, Electronic workflows, OCR & transaction automation System
Technology	C#, XAMARIN FORMS, MVVM, SKIA Sharp, SQLite, .NET Core, Angular VISUAL STUDIO 2019
Tools	Leadtools, Syncfusion
Role	Analysis, Requirement gathering, Development, Designing, Coding
Responsibilities	<ul style="list-style-type: none"> Worked on development of applications for android and ios, with xamarin forms. Debugging the code for the application to be cross platform compatible. Used mvvm design pattern to design the application. Participated in daily stand-up meetings and involved with scrum project estimation meeting. Development is being done using agile methodology with daily scrums and continuous integration, to deliver higher-quality software far more rapidly. Use syncfusion and leadtools APIs and SDKs to fulfil requirements faster. Maintain legacy PaperSave app for existing legacy users. Report and follow-up support cases to get timely response from third party toolkit providers Provide best possible solution and implementation Responsible for Implementing new API endpoints and solving bugs. Identify and made required changes to make web app compatible with WCAG standards

DesignOwl (1 year)

Domain	Security Management System
Technology	C#, XAMARIN FORMS, MVVM, SKIA Sharp, SQLite, VISUAL STUDIO 2017

Project Brief	PaperSave is a complete document management, electronic workflow and transaction automation solution. PaperSave's unique integration provides one click access to documents within Intacct, Microsoft Dynamics AX, GP, SL, CRM, Blackbaud's Raiser's Edge ®, Financial EdgeTM and Educational EdgeTM. Take control of your processes with an integrated document management, workflow, and automation solution.
---------------	---

DesignOwl (1 year)

Role	Analysis, Requirement gathering, Developer, Designing, Coding
Responsibilities	<ul style="list-style-type: none"> Responsible for all the phases of Software development life cycle (SDLC) using Microsoft .Net Technologies. Worked on development of applications for android and iOS, with Xamarin.Forms. Debugging the code for the application to be cross platform compatible. Used mvvm design pattern to design the application. Used SkiaSharp for improved image loading and user operations over it. Used SQLite for storing and utilizing offline data. Used background upload service for datasync to server. Participated in daily stand-up meetings and involved with scrum project estimation meeting. Development is being done using agile methodology with daily scrums and continuous integration, to deliver higher-quality software far more rapidly. Responsible for bug fix, Enhancements, Designing, Impact analysis & lessons learned documentation. Responsible for creating and distribution app packages to respective platforms stores Responsible for Implementing Push Notification and Universal links.
Project Brief	This application is Mobile application where user can manage electronic device related problems. An Organization can manage equipment installed or to be installed on different floors of building. Such devices can be assigned to technicians with its details like installation status, Operation status, addition information about issue, Cost, installation position, Images. More than just input details with this app this app allows to add, remove new equipment. Create a whole design of installation on a floor or building. This application can be access by different roles and different users. All roles and users having different kind of rights to access the application areas.(This app is focused on Tab and iPad)

InstallOwl (1 year 6 months)

Domain	Security Management System
Technology	C# , XAMARIN FORMS, MVVM, SKIA Sharp, SQLite, VISUAL STUDIO 2017
Role	Analysis, Requirement gathering, Developer, Designing, Coding
Responsibilities	<ul style="list-style-type: none"> Responsible for all the phases of Software development life cycle (SDLC) using Microsoft .Net Technologies.
